Fall 1941

For several years I have tried the experiment of prepaying the express charges or postage. While the amount paid on individual orders was usually very small, I have learned by experience that *twenty to thirty thousand* of such payments just devours all the profits, whereas if each purchaser will pay the small express charge on his purchase it will not be a hardship on any one. I will therefore, hereafter send everything by express, charges collect, the small express charge to be collected by the express company on delivery of package. If shipment by parcels post is necessary, please include an amount to cover postage.

POSTMASTER: If addressee has removed and new address is known, notify sender on FORM 3547, postage for which is guaranteed.

Lovely AMARYLLIS Hybrids

The most striking house plant and easy to grow indoors. See illustration above. Plant one bulb to a pot, with two-thirds of the bulb above ground. Cultural directions sent with each order. Each flower stalk has from 2 to 6 huge lily-like blossoms, in colors from the most vivid reds through intermediate shades to pinks and white. When I say "huge," I mean that each flower is from 5 to 10 inches across. There are solid colors, striped and blended effects. Put a few pots in your window for winter flowering and watch results.

New Giant Blueberries

If you have been buying blueberries in the market lately you may have noticed that they are larger and more delicious than the kind you were formerly able to get. This is the result of work that has been done by experts to improve the old fashioned blueberry. The following is a group of the finest new blueberries to date. They produce the most delicious fruit up to $\frac{3}{4}$ of an inch in diameter. Each plant should produce several quarts of berries each season. Aside from their value in this respect they are most ornamental of all shrubs, Spring, Summer, Fall and Winter. Two or more varieties should be planted together for cross-pollenization for best results. They are hardy anywhere and easy to grow. Cultural directions will be sent along with the plants.

CABOT—The earliest variety of all to bear fruit. Broad plants about 3 ft. high, making a broad, low spreading bush.

CONCORD—The bush is of upright habit and will eventually reach 6 ft. in height. They ripen a few days earlier than Rubel. Berries are large, frequently measuring $\frac{3}{4}$ inch in diameter.

JERSEY—The bush is of vigorous habit and grows to be quite large. The berries are the largest of any here listed and ripen about the same time as Rubel.

RANCOCAS—The bush is of slender, vigorous, upright growth reaching about 5 ft. in height. The berries are somewhat larger than Rubel and ripen several days earlier.

RUBEL—The bushes are vigorous and handsome and eventually reach a height of 6 ft. or more. The berries are large and of fine blue color. Can be depended upon for a good crop every year. Ripens about 2 weeks later than Cabot. \$1.50 each; 3 for \$3.75; 6 for \$6.00.

Purple
Wisteria

Wisterias

Many people have had the great disappointment of buying cheap Wisterias and then having no flowers on them after growing them for years. You will not have this trouble with the plants I am offering, as they are all grafted plants grown from flowering wood of extra fine plants and every plant will furnish a great profusion of bloom. The plants are extra strong robust plants, much finer than anything you would expect to receive. You will be agreeably surprised when you see them, and still more pleased when you see them in bloom.

WHITE OR PURPLE—Your choice—
\$1.50 each; 3 for \$3.75; 6 for \$6.00.

Giant Mallows

3 ft. The illustration at the right is very greatly reduced. THE FLOWERS BEING MORE THAN FOUR TIMES THE SIZE OF THE ILLUSTRATION. These new improved Giant Mallows are truly of colossal size, being as large as a dinner plate and as handsome as they are large. They look much like huge hollyhocks, but the flowers are several times as large as a hollyhock and the plants are more bushy. They flower profusely all summer long and require no care, being among the hardiest of all flowering plants. The extra strong roots I will send will flower the first year and grow larger and finer each year. Once planted they flower year after year with no special care. Either in the home garden or in the wild garden their rugged constitution gives assurance that they will take care of themselves. In the entire horticultural field nothing is more showy, or more easy to grow. There are three colors: red, pink, and white, and they can be furnished in any color desired, or assorted. 50c each; 3 for \$1.00; 6 for \$1.50; 12 for \$2.75; 100 for \$20.00.

SENSATIONAL RUSSELL LUPINS—No flower has produced as much of a sensation as these Russell Lupins, which are absolutely new and as far superior to the old style Lupins as modern fashions are superior to those of 50 years ago. The illustration speaks for itself as to beauty and the color range seems to be unlimited, the illustration showing only a few of the remarkable new colors. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$6.00.

Sensational Russell Lupins

Giant Mallows
(Greatly Reduced)

TRADESCANTIA "James C. Weguelin"—One of the choicest garden flowers of recent European introduction. A beautiful new free flowering hardy plant with lovely porcelain blue flowers freely produced from June to September. The flowers are about twice as large as the regular Tradescantia. Hardy anywhere and requires practically no care. Particularly valuable because it will bloom freely in shady places. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$6.00.

"James C.
Weguelin"

Widar

COLUMBIA—Plant Patent No. 118. See color illustration below. The finest pink Phlox ever grown. Each plant quickly produces many flowering stalks, literally covered with masses of beautiful cameo pink flowers, with a soft blue eye. Continuously in bloom from June until killed by frost. 40c each; 3 for \$1.10; 12 for \$3.30; 100 for \$20.00.

Phlox — COLUMBIA

Hardy Phlox

The Newest and Best

35c each; 3 for 90c; 6 for \$1.75; 12 for \$3.00
100 for \$18.00 (Except Columbia)

For flowers during late summer and early fall, these lovely new Hardy Phlox are the most beautiful and most useful of all hardy plants. They blossom at a time when flowers are likely to be scarce in the garden and will continue to flower throughout the season if the dead blossoms are removed. These newer Phlox have clear, more brilliant colors and are indispensable in the hardy flower garden.

ALBERT LEO SCHLAGETER—No other Phlox approaches this magnificent new variety in beauty, brilliance, purity of color, and length of flowering season. The color is true, brilliant, American Beauty Red, with a deeper red eye, with large florets and immense trusses so profuse as to hide the plant. FLOWERS FROM JUNE UNTIL KILLED BY FROST. 36 in.

B. COMTE—Very rich velvety intensely vivid deep red-purple. Generally considered the best purple. B. Comte will produce one of the most showy spots in the garden.

BEACON—A rich glowing red that is a beacon light in the garden.

BORDER GEM—Brilliant velvety rich violet purple. The finest of this color.

BRIDESMAID—A lovely white with deep crimson-carmine eye. Late flowering. Strikingly beautiful. 30 in.

CHAMPS ELYSEES—Very dark, rich ox-blood red.

COLONIAL—A most unusual and very beautiful soft lavender-pink.

Huge florets produced in prodigious quantities. Best of its color.

DAILY SKETCH—One of the finest of the new European introductions. Large individual florets and immense flower heads of a lovely shade of pink, with a deep crimson eye. 32 in.

EIFFEL TOWER—Salmon pink with a deep red eye, the color deepening and spreading as the flower ages, giving it a unique and very beautiful appearance.

E. I. FARRINGTON—One of the finest new salmon shades. Similar to Columbia, but larger and taller and slightly deeper, with huge individual florets and a bright violet eye. 34 in.

ENCHANTRESS—Unusually brilliant and effective and well named. The color is deep bright pink with a vivid carmine eye, surrounded by a light sunburst. Very striking.

FIANCEE—Purest snow white. Very free flowering. Probably the best pure white.

JULES SANDEAU—A superb free flowering soft pink. See illustration page 29.

MISS LINGARD—Best early pure white. Very free flowering.

MRS. CHARLES DORR—A most unusual and very delightful shade of soft pinkish lavender, the flowers being produced in great profusion. No other Phlox like it. Very tall. 48 to 50 in.

MRS. WM. JENKINS—A very profuse blooming and delightful late flowering snow-white variety. 32 in.

PAINTED LADY—This is one of the most attractive Phlox I have seen, with large flower heads of a very soft pink, with a brilliant Tyrian-Rose eye in striking contrast. 32 in.

RHEINLANDER—Deeper salmon pink than Columbia illustrated at left. Also has a deep red eye.

THOR—A fine rich deep salmon red with deeper eye. Large florets and immense flower heads. 36 in.

WIDAR—This very lovely lavender Phlox, illustrated in color, is one of our most beautiful and unusual varieties.

***Golden Gleam Collection
of Daffodils***

Choicest Narcissi and Jonquils also included

It would be hard to select another investment that will give you so much pleasure and satisfaction and garden beauty for the money expended. This collection is the finest I have ever offered and consists of a well-balanced mixture of all of the finest types; including The Yellow Trumpet Daffodils; Bi-Color Trumpet Daffodils, with white perianths and golden yellow trumpets; the All-White Trumpet Daffodils; Barri Narcissi, Incomparabilis Narcissi, Leedsii Narcissi, Poets Narcissi, Double Narcissi; Jonquils and Jonquil Hybrids. Unfortunately, I could only illustrate a few of the types. All are hardy. They will bloom for you early next Spring, beautifying the garden and providing pleasing bouquets of cut flowers for the house. When once planted, they may be left undisturbed for years, and will increase from year to year without any care. A few bulbs will soon produce armfuls of flowers. Superb for the garden and for naturalizing. This year I am furnishing a greatly improved collection. Nothing that can be planted in the garden will require so little care and provide so much beauty over so many years for so little money.

DEUTZIA, Pride of Rochester

FLOWERING QUINCE—Just a few extra fine strong bushes left. The flowers are brilliant red, even more vivid and handsome than the illustration and produce in prodigious quantities on a shrub growing six feet tall.

FORSYTHIA — Harbinger of Spring time, the first shrub to blossom. Hardy anywhere. Extra strong bushes.

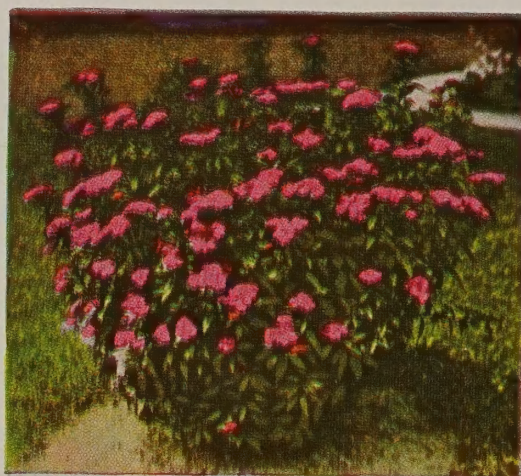

BUSH HONEYSUCKLE — Fragrant, evergreen, covered with blossoms. Extra strong plants.

- 1—Deutzia Pride of Rochester
- 2—Weigelia Rosea
- 3—Spirea Van Houttei
- 4—Fragrant Mock Orange

A CHOICE SELECTION OF HARDY FLOWERING SHRUBS FOR THE HOME GARDEN

The habit of growth of these shrubs is shown by the Deutzia Pride of Rochester in upper left corner.

SPIREA ANTHONY WATERER—For a 3 to 4 ft. shrub nothing is more delightful. Easy to grow, showy and free blooming. Only a few left.

Hydrangea Arborescens Grandiflora

HYDRANGEA ARBORESCENS GRANDIFLORA—The above illustration speaks for itself. There are no finer shrubs for a hedge, border or foundation planting. Extra large strong plants.

Crab Apple Fruit

FLOWERING CRABS—Are among the most lovely of our spring flowering trees.

NEW RED FLESH—Red flowers and fruit. \$2.50.

RED SILVER—Red leaf, bark, and flowers; foliage tin-seled silver underneath. \$2.50.

FLORIBUNDA—White flowering. \$1.50.

PINK FLOWERING—\$1.50.

RUDBECKIA PURPUREA—Hardy, free flowering. Excellent for cut flowers, or in the garden. Bloom from July to October. Good for sun or partial shade. 3 for \$1.00; 6 for \$1.75; 12 for \$3.00.

VERONICA—Nothing finer for a blue garden than these spires of delightful blue. Strong 2 year old field-grown plants, 3 for \$1.00; 6 for \$1.75; 12 for \$3.00.

FINEST NEW EVERBLOOMING HARDY VIOLAS—

This race resulted from Violets being crossed with Pansies, giving us the beauty of Pansies with the hardiness of Violets, with flowers in bloom all summer and fall. All colors assorted. While they last, 5 for \$1.00; 10 for \$1.50; 75 for \$10.00.

AZALEA FLOWERED CHRYSANTHEMUM—

Literally covered with blossoms. Hardest of all. Disease resistant. Fine for growing outdoors or in pots. Pink, yellow, white, bronze. One color or assorted, 3 for \$1.00; 6 for \$1.75; 12 for \$3.00.

HOLLYHOCKS—A superior strain of new hybrids. Giant flowering. Mixed colors assorted, pink, mauve, maroon, yellow, rose, white, etc., 3 for \$1.00; 6 for \$1.75; 12 for \$3.00.

GIANT FLOWERING FOX-GLOVES, Grandiflora Hybrids—

Striking garden subjects. Marvelous color range, 3 for \$1.00; 6 for \$1.75; 12 for \$3.00.

Aquilegia (Columbine)

White Swan Double Daisy

Spiraea Van Houttei

Lychnis Chalcedonica

Snowberry

HARDY AGERATUM (Eupatorium Coelestinum)—See color illustration. 18 to 30 in. Those who are fond of the lovely blue Ageratum will surely find this hardy species even more enchanting. The plant is literally covered with true fluffy blue Ageratum flowers, from July until frost; but best of all it reappears each year without further attention after it is once planted. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00.

AQUILEGIA (Columbine)—See illustration. Every gardener loves the dainty columbines. The long-spurred Hybrids I am offering are a great improvement over the older varieties. There is a wide range of delicate soft colors and rich pastel shades. Large, healthy 2 year old field grown plants. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00.

BLEEDING HEART (Dicentra Spectabilis)—See illustration. This old favorite with graceful racemes of flowers is a great delight in any garden, and will make itself perfectly at home anywhere. When once established it is good for a lifetime with no care and becomes more handsome with each succeeding year. Extra Strong Clumps, 50c each; 3 for \$1.35; 6 for \$2.50.

PLUMED BLEEDING HEART—The plumed foliage of this variety has a beautiful fern-like appearance, more handsome than the finest fern. Blooms all summer and the foliage remains handsome until killed by severe freezing weather. Prefers semi-shade. 50c each; 3 for \$1.35; 6 for \$2.50.

CHINESE LANTERN—Also known as "Winter Cherry." See illustration. The red balloon-like fruit form excellent winter decoration as they dry and retain their color through the winter. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00.

COREOPSIS "Golden Giant"—See illustration. A glorious new giant-flowered coreopsis with flowers four inches in diameter, of perfect form, outstanding true golden yellow color and exquisite fragrance. Nothing is more colorful in the garden. A real acquisition for garden or cut flowers. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00.

FUNKIA SUBCORDATA GRANDIFLORA ALBA—This rare and unusual Funkia has large exquisitely fragrant white flowers resembling Easter lilies and almost as large, borne profusely all summer long. The foliage is also ornamental. They are so hardy that they will grow anywhere, in sun or shade, with practically no care. Equally attractive in the rock garden or in a wild garden, or in the border, or in a bed by themselves. Wherever you plant them they will take care of themselves. 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.50; 100 for \$50.00.

FORSYTHIA—Everybody loves the beautiful Forsythia, herald of Springtime, with its masses of bright yellow flowers. The flowers cover the branches in early spring before any foliage appears. See illustration. 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.00.

GAILLARDIA—18 in. See illustration. Daisy-shaped orange yellow flowers, banded with red. Flower freely all summer and fall. You will never be out of cut flowers if you grow a few gaillardias. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00.

LIATRIS (Blazing Star or Gayfeather)—An excellent cut flower or garden subject growing with flowers along the stalk much like a Delphinium. See illustration. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00.

LYCHNIS CHALCEDONICA—3 ft. See color illustration. One of the most brilliant of our hardy plants, with vivid scarlet flower heads. Flowers all summer. 35c each; 3 for 85c; 6 for \$1.50; 12 for \$2.50.

PAINTED DAISY "Brilliant"—Best of all the Painted Daisies, the gorgeously brilliant, fully double red flowers being superb as cut flowers and a masterpiece of beauty in the garden. All are plants from root division of the original plant. See illustration. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00.

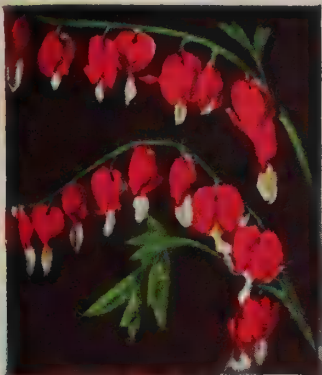

PAINTED DAISY "Miami Queen"—Much like Brilliant, and equally as fine in a somewhat lighter tone. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00.

Chinese Lantern

Gaillardia

Bleedingheart

Liatris

Coreopsis

Spiraea Anthony Waterer

PAINTED DAISY "Trojan"—A very lovely free flowering dark pink variety. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00.

PAINTED DAISY "Buckeye"—A very fine double-red completely covered with blooms, excellent for cutting. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00.

PAINTED DAISY "Victory"—Fully double pure white as shown in the illustration lower right hand corner. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00.

SHASTA DAISY—Produces in great profusion daisy-like flowers of huge size. Fine for cutting or garden effect. See illustration at right. The strain I have produces mammoth size flowers. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50.

PINK SHASTA DAISY "Clara Curtis"—Absolutely new, introduced for the first time in 1939. A glowing pink Shasta Daisy that is hardy and disease resistant. Height 18 to 24 inches, with a spread of 2 feet and literally covered with flowers. Gorgeous in the garden and superb for cut flowers. Flowers during August, September and October. Only a limited quantity available for delivery this year. 50c each; 3 for \$1.25; 6 for \$2.00.

DOUBLE WHITE SHASTA DAISY—These double white Shasta Daisies are just like double white Chrysanthemums, but flower earlier, commencing to flower in July and continuing until frost. They are the Elite of the Shasta Daisy group and a delightful addition to any garden. As cut flowers they are unsurpassed. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.75.

SNOWBERRY (Also called Waxberry)—A hardy shrub of unusual interest because it is covered with wax-like snow white berries—see illustration. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50.

SPIRAEA "Peach Blossom" (Astilbe)—See illustration. Entirely different from other Spiraeas, as this type grows only about 18 inches tall and is used extensively by florists as specimen pot plants. Hardy and easy to grow and handsome in the garden or as cut flowers. 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.00.

SPIRAEA "Van Houttei"—A very showy hardy spring flowering shrub, literally covered with snow white flowers as shown in the illustration at the bottom of page 8. Fine as a specimen shrub, or for a hedge or foundation planting. 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.00.

SPIRAEA "Anthony Waterer"—A hardy shrub producing deep rose colored flowers in great profusion. Best of its color. See illustration. 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.00.

HARDY SWEET PEAS (Lathyrus)—The flowers are quite as handsome as the annual Sweet Peas, but once planted these Hardy Sweet Peas will take care of themselves, coming up each year with little or no care. For covering a low trellis or fence there is nothing finer. The flowers grow in clusters, one cluster being sufficient for a small corsage bouquet, and the plants are covered with these delightful red, pink and white flowers all summer long. Sold in mixed colors only. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50.

WHITE SWAN DOUBLE DAISY—See illustration. Something new and unusually beautiful. Solid double pure snow-white flowers on good wiry stems from 18 to 24 inches long. Magnificent for cut flowers and for landscape or garden effect. Used extensively by the florist trade. 35c each; 3 for 75c; 6 for \$1.25

Buddleia "Fortune"

Presenting the New Buddleia "Fortune"

PLANT PATENT No. 206

The Buddleia, also known as the Butterfly Bush, or Summer Flowering Lilac, is one of our most valuable and ornamental shrubs and the new Buddleia "Fortune," illustrated above, is a distinct improvement over varieties heretofore known. "Fortune" is very close to perfection. The color is clear pure lilac, with a small orange eye in each tiny floret. The flower sprays are fully round, beautifully symmetrical, and the entire spray is in

bloom practically from base to tip at the same time. The flowers may be cut with stalks 2 to 3 feet long and last several days when cut. It is magnificent as a cut flower and stunning as a garden specimen. The bush is of neat habit, about four feet high and four feet across. It flowers continually all summer and until stopped by frost. **Strong plants \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

"Charming"

Presenting the New Pink Buddleia "Charming"

A lovely new color in Buddleias

This sensational new Buddleia has been AWARDED A SILVER MEDAL by the Pennsylvania Horticultural Society. The lovely pink flowers are borne in long sprays throughout the late summer and autumn. Gorgeous as a shrub in the garden and superb as cut flowers. See illustration. Strong field grown plants. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$8.00.**

Buddleia "Dubonnet"—A beautiful new Buddleia in a rich Dubonnet Wine color. In sunshine or under light it is almost a glowing red and is one of the richest colors of all. The plant is symmetrical and the spikes are solid and well rounded with large florets. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$8.00.**

Buddleia "Hartwegei"—Another new Butterfly Bush with brilliant lavender flowers, closely and compactly placed on the panicles, opening to the top before the basal flowers fade. As a summer cut flower and as an ornamental lawn or garden shrub it is unsurpassed for its beauty and usefulness. The hardiest of all. **50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50.**

Hardy Hybrid Tea Roses

AMELIA EARHART (Everblooming) Plant Patent No. 63. This is one of the most delightful roses I have ever seen and is wanted by everyone who sees it in bloom. The flowers are of huge size, extremely double, opening to soft yellow and changing to ivory, with a slight blush overtone. It is extremely fragrant, a rugged robust plant and a fine bloomer. See color illustration at right. \$1.25 each; 3 for \$3.15.

© 1937

PLANT PATENT
NO. 335

Rome Glory
(Everblooming)

PLANT PATENT NO. 304

ROME GLORY (Everblooming) Plant Patent No. 304. This is undoubtedly the finest red rose introduced to date, being even finer and more brilliant in color than the illustration. The delightfully fragrant flowers are produced in great profusion all summer, on long stems that make them ideal for cutting.

Perfect in every stage, from the crimson red bud to the fully blown flowers. Long lasting, either on the bush or when cut. Robust and vigorous grower and one of the most winter hardy of all Hybrid Tea Roses. I do not hesitate to recommend Rome Glory as the one red rose that should be in every garden. \$1.25 each; 3 for \$3.15.

PLANT PATENT
NO. 321

McGREDY'S PINK (Everblooming) Plant Patent No. 341. See illustration above. It would be hard to imagine a more delightful satiny pink rose than this new rose from Ireland. It has just a touch of yellow at the base of the petals to add to its unusual beauty. The flowers are large, of perfect form, sweetly scented, and produced continuously from June until late autumn. Superb as cut flowers and magnificent in the garden. \$1.00 each; 3 for \$2.50.

**Mme. Jean
Gaujard
(Everblooming)**

MME. JEAN GAUJARD (Everblooming) Plant Patent Applied For. A new rose which has been awarded two GOLD MEDALS abroad. A rose of unusual distinction and charm. The inside of petals are of orange and the outside carmine pink with a suffusion of gold at the base. The contrast is rich and alluring. \$1.25 each; 3 for \$3.15.

ON ALL PATENTED ROSES THE PRICE FOR THREE APPLIES ONLY WHERE THREE OF A KIND ARE ORDERED. THE SPECIAL GROUP PRICES ARE MADE WITH THE CONSENT OF THE PATENTEES AND CAN BE ALLOWED ONLY WHERE COMPLETE GROUPS ARE ORDERED WITHOUT CHANGE.

White Briarcliff (Everblooming)

PLANT PATENT NO. 108

WHITE BRIARCLIFF (Everblooming) Plant Patent No. 108. See illustration above which is greatly reduced. This is the supreme white rose of the year, of huge size, perfect form and pure glistening snowy whiteness. Hardy and a continuous and free bloomer. The best white rose for all purposes to date. \$1.00 each; 3 for \$2.50.

BETTER TIMES (Everblooming) Plant Patent No. 23. See illustration below. Whether you wish a rose which holds its perfection of form, as shown by the color illustration, or for striking and brilliant color effect in the garden, for profusion of bloom throughout the entire summer, or for cut flowers indoors, Better Times is hard to beat. It has long crimson buds of delightful form, developing into very large, fragrant, perfectly formed flowers on long strong stems. \$1.00 each; 3 for \$2.50.

©

Better Times (Everblooming)

PLANT PATENT NO. 23

MRS. FRANCIS KING (Everblooming) Plant Patent No. 253. See illustration above. All hybridizers agree that a good white rose is hardest to produce. This is probably why such a connoisseur as Mrs. Francis King, one of the founders of The Garden Club of America, specified a white rose as the one she wished to bear her name. She wisely wanted a rose not easily duplicated. To make the problem more difficult she specified "White Gold" with the arctic vigor and hardiness of the Alaskan Rose Nutkana. The blossoms are very large, carried on long upright stems, white at first tinted cream and ivory, turning to pure white with a soft gold centre. It has the pleasant fragrance of wild roses and is a prolific continuous bloomer. CERTIFICATE OF MERIT 1937. 85c each; 3 for \$2.15.

Countess Vandal (Everblooming)

COUNTESS VANDAL (Everblooming) Plant Patent No. 38. See illustration above. This rose has been acclaimed the belle of the modern Rose Pageant, defeating all challengers by producing, without exception, the most artistic bud in rose-dom, garbed in coppery bronze and pink, suffused with soft gold. Continuous bloomer. \$1.00 each; 3 for \$2.50.

Break O' Day Rose

"Break O' Day" Rose

A New Type of Rose to Revolutionize the Rose Industry. "Break O' Day" is the direct result of 35 years of Rose Breeding for the purpose of producing certain definite improvements in the rose family. The result is an entirely new type of rose never before produced. The flowers are very large, with 60 petals, exquisitely fragrant and superior to anything in commerce in Hybrid Tea Roses. The bush produces many times the number of flowers produced by the most vigorous Hybrid Tea Rose, being loaded with flowers all summer and fall. But one of the greatest achievements in "Break O' Day" Rose is its life expectancy of 40 to 50 years. Instead of planting a hybrid tea rose to enjoy a few years of blossoms, you will now plant this new type of rose for a life-time of flowers.

AND IT IS SUB-ZERO HARDY and will make 4 to 5 foot specimens, three feet in diameter, constantly covered with blossoms; or you may keep them trimmed back as desired. To reproduce this rose in color in the illustration at the left was the despair of the artist, with its many changing salmon, apricot and pink tints, all blended together in a delightful harmony. The color leans more towards the pink tone and is much more handsome than the illustration. **Extra Strong Two Year Old Field Grown "Cream Quality" plants** \$1.50 each; 3 for \$3.75.

Lily Pons Rose

"Lily Pons" is the result of the same 35 years of cross breeding as "Break O' Day," with all of its good qualities as described above. "Lily Pons" is the second of this new group of Sub-Zero Hardy Improved Hybrid Tea Roses. It is undoubtedly the greatest achievement in roses to-day. Such perfection was never seen in a rose before.

It is a huge flower, as fine as the finest hothouse grown rose as charming and brilliant as the voice of the singer for whom it was named. The flowers are *five and one-half inches* across and freely produced all summer. The centre is yellow, shading to white outer petals.

\$1.50 each; 3 for \$3.75.

Apricot Glow

APRICOT GLOW (Patent Applied For). A truly magnificent climber with flowers of a light apricot color shading yellow at the base. Produced in large trusses. The flowers are double, nicely formed of a pleasing fruity fragrance. In color it resembles Jacotte which is one of our most exquisite climbing roses, but being fully double, the effect is richer. It is also a more profuse bloomer and of stronger habit of growth. Apricot Glow is a real acquisition in the climbing rose family. \$1.00 each; 3 for \$2.50.

Hardy Garden Lilies

REGAL LILY (Illustrated above)—This Lily is well named as it is a flower of regal splendour. The flowers are of immense size and great beauty, being of snowy whiteness with an attractive soft yellow centre and the outside flushed soft pink. It is delightfully perfumed, having the sweet fragrance of the Jasmine. One flower stalk will often make a complete bouquet. It flowers in July. Large bulbs—35c each; 3 for \$1.00; 12 for \$3.50; 100 for \$25.00.

SUNSET LILY—Produces 15 to 20 flowers to a stalk, up to 7 ft. in height when established. Color deep orange, spotted maroon, with tips of petals deep scarlet. Hardy in sun or partial shade. July flowering. 35c each; 3 for \$1.00; 12 for \$3.50; 100 for \$25.00.

ELEGANS LILY—This is the finest rock garden or bedding lily, being just 12 to 18 inches tall with the attractive open saucer shaped flowers facing up, giving a marvelous bedding effect. Red spotted maroon. Profuse bloomer. 30c each; 3 for 85c; 12 for \$3.00; 100 for \$22.50.

DOUBLE TIGER LILIES—An unusual double form of the Tiger Lily, with large attractive rosette-like flowers. Very handsome. 25c each; 3 for 60c; 12 for \$2.00; 100 for \$15.00.

CANDIDUM (Madonna Lily)—A universal favorite for its lovely pure snow white flowers and delightful fragrance. Perfect Easter Lily type. Hardy and easy to grow out of doors. Flowers during June and early July. On account of the war this variety is now almost unobtainable in this country, but I have a limited quantity of extra choice bulbs to offer at 75c each; 3 for \$1.75; 12 for \$6.00; 100 for \$40.00.

SPECIOSUM MAGNIFICUM—See color illustration above. This is one of the greatest of all Hardy Garden Lilies, sharing this distinction with Candidum and the Regal Lily, a trio of garden lilies that is unsurpassed. A flower of striking beauty and easy culture. Color deep pink, spotted red and margined white. Flowers late summer and autumn. Large bulbs—35c each; 3 for \$1.00; 12 for \$3.50; 100 for \$25.00.

Everblooming Climbing Roses

For many years the famous Radiance Roses have been the standard by which other roses have been judged as to vigor, freedom of bloom, hardiness and general desirability everywhere. No other rose has ever equalled the Radiance Roses in all these desirable qualities, for which A Silver Medal was Awarded by the American Rose Society. Now we are able to furnish you the everblooming climbing form, with all these desirable qualities and with an even greater profusion of bloom. Why not have the finest roses in America always in bloom, when they can be had at such small cost.

EVERBLOOMING CLIMBING PINK RADIANCE ROSE

Perfect cut flowers, one to a strong stem, as fine as hot-house grown roses. From the colored illustration at left you will realize that this rose is a beauty, either as a cut flower or for a stunning effect in the garden. The flowers are extra large, very double, perfectly formed and extremely fragrant. Hardy, vigorous, free blooming. It has everything that can be expected from a perfect rose. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

EVERBLOOMING CLIMBING RED RADIANCE ROSE

Exactly like the Climbing Pink Radiance Rose, as to habits, form, beauty, ruggedness, freedom of flowering, disease resistance and all other good qualities, the only difference being the color, which is a deep rich American Beauty Red. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

EVERBLOOMING CLIMBING PRESIDENT HOOVER

The President Hoover Rose has been one of the sensations of the century and has been AWARDED TWO GOLD MEDALS AND ONE SILVER MEDAL. Probably not one rose in a thousand is so honored. It is a rose of huge size, perfect form and delightful colors, the illustration on this page being about half the actual size. Now offered in Everblooming Climbing Form at \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

MARY LOVETT CLIMBING ROSE

A perfectly gorgeous pure snow white climber. The flowers are of large size, fully double and as fine as a Hybrid Tea Rose, but produced in much greater profusion. Sometimes flowers again in the fall. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

Everblooming Climbing Talisman

EVERBLOOMING CLIMBING TALISMAN. No rose has ever approached the popularity of the Talisman Rose as a cut flower. Florists sell more of them to-day than of any rose grown. Now we have this delightful rose in everblooming climbing form. The flowers are about five times as large as the greatly reduced illustration at the right, which gives but a faint idea of the great beauty and brilliance of this fine rose. The large double flowers are identical in form and color with the bush Talisman, but even larger and more handsome and produced in greater profusion. It is perfectly hardy where other roses are hardy and is a robust grower and profuse bloomer, continuing in flower until killed by frost. Extra strong, number one field grown two year old plants. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

Climbing Etoile de Hollande (Everblooming)

Grace Wayman Rose

The World's Finest Climbing Rose

GRACE WAYMAN ROSE. The World's Finest Climbing Rose. The illustration of the Grace Wayman Rose at right does not begin to do it justice, as it is much more handsome. In fact everyone who has seen the Grace Wayman Rose in bloom has pronounced it the finest climbing rose they have ever seen. Comparing it with other pink climbers it is a better color, better form, larger, more double, of heavier substance and a more profuse bloomer. In color it is a luscious pink, a flower of unsurpassed form and mammoth size, much larger than the illustration. And such profusion of bloom. One wonders how any plant can produce so many gorgeous blooms. But the big surprise is that in addition to its huge crop of flowers in June and an occasional flower during the summer, it will produce the largest crop of any climber in September, and until killed by severe frost. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

greatly reduced.

New Patented

Everblooming Climbing Souv. de Claudius Pernet

EVERBLOOMING CLIMBING SOUV. DE CLAUDIUS PERNET.

An Everblooming Climbing Yellow Rose. The illustration above does not do it justice, as it is a very large, fully double flower, of pure deep sunflower yellow. It is a sport of the Hybrid Tea Rose of the same name, which has been THE WINNER OF SEVERAL GOLD MEDALS AT HOME AND ABROAD. It is very hardy, a profuse bloomer, fragrant, and has rich glossy, polished green foliage. Those who have been looking for a gorgeous everblooming yellow rose now have an opportunity to gratify their wishes. Order early. Stock limited. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

Elegance Climbing Rose

ELEGANCE CLIMBING ROSE—This new climbing rose, with its sparkling brilliance, is the last word in climbers. It is the result of 35 years of cross-breeding and it is one of the greatest climbers introduced to date. The illustration is made from an actual photograph, but is greatly reduced, because if it were produced in actual size it would fill the width of this page, for the flowers are up to 6½ inches across. It is the first of the climbers to flower, and continues blooming over a long period. It is a prodigious bloomer. The flowers are very double and of perfect Hybrid Tea Form, with 65 petals beautifully recurved; exquisite China Tea Fragrance. Yellow centre, blending to cream colored outer petals and eventually becoming pure ivory. Stiff strong flower stems, up to four feet, with one to 20 huge flowers to a stem. New type of feathered shiny foliage. Disease resistant, sub-zero hardy. Extra strong, two year old field grown plants. \$1.50 each; 3 for \$3.75.

GOLDEN ORANGE CLIMBER (Plant Patent No. 96).

Another new climber and a flower of great refinement, no other rose being anything like it. I like it best of all the yellow climbers. The flowers are of huge size, blending from pure yellow to light cadmium orange. Aside from its unusually attractive color and its very rich China Tea Fragrance, what appeals to me is the crinkled silky texture of the petals. It is superb as a cut flower and magnificent on the trellis. \$1.00 each; 3 for \$2.50.

BLAZE CLIMBING ROSE (Plant Patent No. 10.)

See illustration below. Can you imagine anything more attractive than this "Blaze of Glory?" It is a sport of Paul's Scarlet Climber, with all its beauty, hardiness, vigor and profusion of bloom, but with a tendency to produce two or more crops a year in some localities when fully established. One of the most showy of all climbers. \$1.00 each; 3 for \$2.50.

Blaze Climber

PLANT PATENT
NO. 10

Climbing Roses

GOLDEN CLIMBER (Mrs. Arthur Curtis James). Plant Patent No. 28. WINNER OF THE GOLD MEDAL AWARDED BY THE MASSACHUSETTS HORTICULTURAL SOCIETY. IT ALSO HAD THE GREAT DISTINCTION OF BEING THE WINNER OF THE AMERICAN ROSE SOCIETY'S MEDAL FOR THE BEST ROSE OF 1933. The illustration gives but a very faint idea of the perfection of form and great beauty of this magnificent rose, for it is a perfectly gorgeous flower of Hybrid Tea type, four to five inches in diameter, perfectly double and of fine form. It is a pure deep yellow climber, holding its color until the last petals fall. The flowers are usually produced one to an 18 inch stem, making them ideal for cutting. It has hardy glossy foliage and ornamental red thorns on rich green wood. The flowers are exquisitely fragrant. The plant is a rugged grower and is hardy in severe sub-zero weather. Should be planted in full sun for best results. \$1.00 each; 3 for \$2.50.

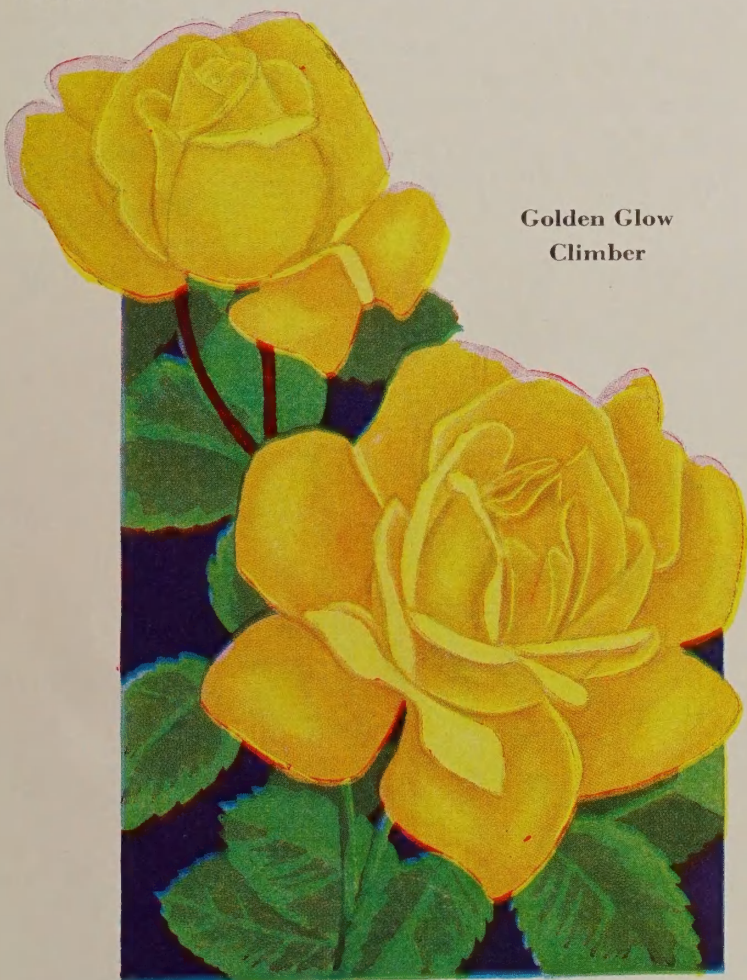

GOLDEN GLOW CLIMBER (Plant Patent No. 263). A sensational pure deep spectrum yellow climber of Hybrid Tea type, with such intense freedom of bloom that the foliage is literally hidden by the flowers. It is an improvement over Golden Climber in profusion of bloom and intensity of color. Perfect double flowers up to 5 inches. Superb as cut flowers and borne in clusters up to 15 or more to a cluster, one cluster often making a huge bouquet. Very fragrant, hardy and disease resistant. Number one, strong two year old "Cream Quality" field grown plants. \$1.00 each; 3 for \$2.50.

COPPER GLOW CLIMBING ROSE. An absolutely new deep coppery orange, being the latest color sensation in roses. In addition to its unusual color and all other good qualities of the preceding varieties, it also has a delightful spicy fragrance. \$1.50 each; 3 for \$3.75.

NEW DAWN EVERBLOOMING CLIMBING ROSE (Plant Patent No. 1). A very lovely soft pink climber and a real everbloomer. Constantly in bloom all summer long, right up until killed by frost. No other climbing rose produces so many flowers, or is such a constant bloomer as New Dawn. AWARDED THE BLOOMFIELD MEDAL FOR THE BEST NEW CLIMBING ROSE BY THE AMERICAN ROSE SOCIETY. A HARDY ROBUST GROWER. \$1.50 each; 3 for \$3.75.

New Climbing Rose

Arctic-Hardy Everblooming

I am presenting here a group of new, little known, Arctic-Hardy Roses that are the most persistent and profuse bloomers of all roses from summer until fall. They are especially bred for mass planting and are particularly recommended for their permanence, hardiness, profusion of bloom and ease of culture. For continuous color mass in the garden, or for hedges, or foundation planting, they are unsurpassed. They are hardy anywhere and are therefore especially recommended for colder climates, or locations where the winters are very severe.

GLOIRE DU MIDI (Everblooming) Plant Patent No. 270. A delightful variety in an unusual brilliant orange scarlet tone, the plant being completely covered with flowers. One spray makes a bouquet. A fine bedding variety. 75c each; 3 for \$1.90.

ROCHESTER (Everblooming) Plant Patent No. 131. No bush ever produced more blooms per plant than Rochester. The flowers are fully double, in a most attractive two-tone effect, pink and buff, deeper at the centre, having coppery tones at the base of the petals. 85c each; 3 for \$2.15.

ANNE POULSEN (Everblooming) Plant Patent No. 182. By far the best red rose in this class and the largest of this type. Large semi-double flowers of intensely vivid scarlet-crimson in large fragrant sprays. 75c each; 3 for \$1.90.

SMILES (Everblooming) Plant Patent No. 331. A bright salmon pink that is so cheerful that some one said "It looks up at you from its place in the garden and smiles." Delightfully fragrant and a continuous and profuse bloomer. 85c each; 3 for \$2.15.

DONALD PRIOR (Everblooming). New. Plant Patent Applied For. This is my own personal favorite of this

Donald Prior (Everblooming)

Floribunda Roses

entire group. It is never without its brilliant vivid velvety red flowers all summer long and it is certainly a great acquisition to any garden. In addition to its other good qualities it has a rich Damask fragrance. 75c each; 3 for \$1.90.

SNOWBANK (Everblooming) Plant Patent No. 279. This rose is well named, as the flowers which open blush white soon turn to a pure dazzling snowy whiteness. They are of large size and borne in great profusion and the plants are always in bloom. 85c each; 3 for \$2.15.

PERMANENT WAVE (Everblooming) Plant Patent No. 107. Similar in color and habit to Anne Poulsen, excepting that the petals are beautifully fluted and waved, the name being most appropriate. 75c each; 3 for \$1.90.

BETTY PRIOR (Everblooming) Plant Patent No. 340. Continually stole the show at the New York World's Fair. Distinctive in appearance, attractive in color, which is a two tone pink, with deeper brilliant pink on the outside, a prodigious and continuous bloomer and attractive from every standpoint. 75c each; 3 for \$1.90.

WORLD'S FAIR (Everblooming) Plant Patent No. 362. THE THEME FLOWER OF THE NEW YORK WORLD'S FAIR ROSE GARDEN, where their great beauty and dazzling velvety brilliance lasted throughout the entire World's Fair season. The plants are literally covered with deep rich red roses from June until frost, the flowers being immensely more handsome than shown by the illustration. \$1.00 each; 3 for \$2.50.

"GOLD MEDAL" DELPHINIUMS—50c Each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 100 for \$25.00

These Delphiniums are the finest I have ever offered. The huge spikes, studded with bloom are often 4 to 5 feet high and the individual florets are many times larger than the greatly reduced illustration. The colors include pure blues, purples, and mauves as well as pure snow white. The plants themselves are strong stocky flowering size two year old plants with extra heavy root system. I would be justified in offering them at \$1.50 each, but as I have an extra fine large stock of them I am making a special price inducement that should appeal to all flower lovers.
